TABLE 24. Kind of Business of Main Store--United States: 1963

(These Census Bureau data on leased departments (concessions) include only leased departments operated in main stores which had some paid employment during the year 1963. Retail businesses reporting in the Census were asked "Is your business at this location conducted as a department or concession (such as a meat department in a grocery store) in an establishment operated by another firm?" They were further instructed to answer "Yes" to this question "if customers normally consider your operation as part of the establishment operated by the other firm, or if your sales are billed by that establishment." In addition every establishment was asked to list any operations within the establishment which met these criteria. Leased departments are included in these tabulations whether identified by the main store or by the leased department operators.)

(These Census Bureau data on leased departments (concessions) include only leased departments operated in main stores which had some paid employment during the year 1963. Retail businesses reporting in the Census were asked "Is your business at this location conducted as a department or concession (such as a meat department in a grocery store) in an establishment operated by another firm?" They were further instructed to answer "Yes" to this question "if customers normally consider your operation as part of the establishment operated by the other firm, or if your sales are billed by that establishment." In addition every establishment was asked to list any operations within the establishment which met these criteria. Leased departments are included in these tabulations whether identified by the main store or by the leased department operators.)

TABLE 24. Kind of Business of Main Store--United States: 1963--Continued

(These Census Bureau data on leased departments (concessions) include only leased departments operated in main stores which had some paid employment during the year 1963. Retail businesses reporting in the Census were asked "Is your business at this location conducted as a department or concession (such as a meat department in a grocery store) in an establishment operated by another firm?" They were further instructed to answer "Yes" to this question "if customers normally consider your operation as part of the establishment operated by the other firm, or if your sales are billed by that establishment." In addition every establishment was asked to list any operations within the establishment which met these criteria. Leased departments are included in these tabulations whether identified by the main store or by the leased department operators.)

TABLE 25. Kind of Business of Leased Department--United States: 1963

(These Census Bureau data on leased departments (concessions) include only leased departments operated in main stores which had some paid employment during the year 1963. Retail businesses reporting in the Census were asked "Is your business at this location conducted as a department or concession (such as a meat department in a grocery store) in an establishment operated by another firm?" They were further instructed to answer "Yes" to this question "if customers normally consider your operation as part of the establishment operated by the other firm, or if your sales are billed by that establishment." In addition every establishment was asked to list any operations within the establishment which met these criteria. Leased departments are included in these tabulations whether identified by the main store or by the leased department operators.)

TABLE 25. Kind of Business of Leased Department--United States: 1963--Continued

(These Census Bureau data on leased departments (concessions) include only leased departments operated in main stores which had some paid employment during the year 1963. Retail businesses reporting in the Census were asked "Is your business at this location conducted as a department or concession (such as a meat department in a grocery store) in an establishment operated by another firm?" They were further instructed to answer "Yes" to this question "if customers normally consider your operation as part of the establishment operated by the other firm, or if your sales are billed by that establishment." In addition every establishment was asked to list any operations within the establishment which met these criteria. Leased departments are included in these tabulations whether identified by the main store or by the leased department operators.)

TABLE 25. Kind of Business of Leased Department--United States: 1963--Continued

(These Census Bureau data on leased departments (concessions) include only leased departments operated in main stores which had some paid employment during the year 1963. Retail businesses reporting in the Census were asked "Is your business at this location conducted as a department or concession (such as a meat department in a grocery store) in an establishment operated by another firm?" They were further instructed to answer "Yes" to this question "if customers normally consider your operation as part of the establishment operated by the other firm, or if your sales are billed by that establishment." In addition every establishment was asked to list any operations within the establishment which met these criteria. Leased departments are included in these tabulations whether identified by the main store or by the leased department operator.)

## PROVISIONS OF LAW RELATING TO THE 1963 CENSUS OF BUSINESS

(From Title 13 United States Code)

SECTION 131. The Secretary shall take, compile, and publish censuses of manufactures, of mineral industries, and of other businesses, including the distributive trades, service establishments, and transportation (exclusive of means of transportation for which statistics are required by law to be filed with, and are compiled and published by, a designated regulatory body), in the year 1954 and every fifth year thereafter, and each such census shall relate to the year immediately preceding the taking thereof: *Provided*, That the censuses of manufactures, of mineral industries, and of other businesses, including the distributive trades and service establishments, directed to be taken in the year 1954 relating to the year 1953 shall be taken instead in the year 1955 relating to year 1954.

SECTION 191. (a) Each of the censuses authorized by this chapter (other than censuses of population) shall include each State, the District of Columbia, Alaska, Hawaii, the Virgin Islands, Guam, and the Commonwealth of Puerto Rico, and as may be determined by the Secretary, such other possessions and areas over which the United States exercises jurisdiction, control, or sovereignty. Censuses of population shall include all geographic areas referred to in the preceding sentence. Inclusion of other areas over which the United States exercises jurisdiction or control shall be subject to the concurrence of the Secretary of State.

(b) For censuses taken in the Virgin Islands, Guam, or any possession or area not specifically designated in (a) above, the Secretary may utilize or adopt census data collected by the Governor or highest ranking Federal official, when such data are obtained in accordance with plans prescribed or approved by the Secretary.

SECTION 224. Whoever, being the owner, official, agent, person in charge, or assistant to the person in charge, of any company, business, institution, establishment, religious body, or organization of any nature whatsoever, neglects or refuses, when requested by the Secretary or other authorized officer or employee of the Department of Commerce or bureau or agency thereof, whether such request be made by registered mail, by certified mail, by telegraph, by visiting representative, or by one or more of these methods, to answer completely and correctly to the best of his knowledge all questions relating to his company, business, institution, establishment, religious body, or other organization, or to records or statistics in his official custody, contained on any census or other schedule prepared and submitted to him under the authority of this title, shall be fined not more than \$500 or imprisoned not more than sixty days, or both; and if he willfully gives a false answer to any such question, he shall be fined not more than \$10,000 or imprisoned not more than one year, or both.

SECTION 9. (a) Neither the Secretary, nor any other officer or employee of the Department of Commerce or bureau or agency thereof, may, except as provided in section 8 of this title—

(1) use the information furnished under the provisions of this title for any purpose other than the statistical purposes for which it is supplied; or

(2) make any publication whereby the data furnished by any particular establishment or individual under this title can be identified; or

(3) permit anyone other than the sworn officers and employees of the Department or bureau or agency thereof to examine the individual reports.

## EXPLANATION OF TERMS

**Establishments**—An establishment is a single physical location at which business is conducted. An establishment is not necessarily identical with the "company" or "enterprise" which may consist of one or more establishments. Census of Business figures represent a summary of reports for individual "establishments" rather than "companies." (Enterprise statistics reports, Series ES, will be issued at a later date covering the Censuses of Business, Manufactures, and Mineral Industries.) A separate report was obtained for each location where business was conducted, including each location of multiunit organizations. Each report was tabulated in accordance with the physical location at which the business was conducted.

Where two or more activities were carried on at a single location under a single ownership, all activities generally were grouped together as a single establishment, and the entire establishment was classified on the basis of its major activity, with all data for it included in that classification. However, in cases where distinct and separate economic activities (for which different industry classification codes were appropriate) were conducted under the same ownership at a single location, and where conditions prescribed by the Standard Industrial Classification Manual for recognizing the existence of more than one establishment were met, separate establishment reports for each of the different activities were reported in the census.

In the case of leased departments, i.e., separately owned businesses operated as departments of a retail business under another ownership (e.g., a separately owned shoe department in a department store), only a single establishment, combining leased departments with the retail establishment in which they are located, is recognized for 1963 census purposes.

The "number of establishments" shown in this volume is the number in business at the end of the census year.

**Sales**—Sales include merchandise sold, and receipts from repairs and from other services to customers whether or not payment was received in 1963. Sales are net of deductions for refunds and allowances for merchandise returned by customers. Total sales exclude

amounts other than those received from customers, such as income from investments, rental of real estate, etc. They include local and State sales taxes and Federal excise taxes collected by the store directly from customers and paid directly by the store to a local, State, or Federal tax agency. Gasoline, liquor, tobacco, and other excise taxes which are paid by the manufacturer or wholesaler and passed along to the retailer are also included.

Sales do not include retail sales made by manufacturers, wholesalers, service establishments, and other businesses whose primary activity is other than retail trade. They do, however, include receipts other than from the sale of merchandise at retail (e.g., service receipts, sales to industrial users, sales to other retailers, etc.) by establishments primarily engaged in retail trade.

Although the count of establishments in this volume represents the number in business at the end of the year, the sales figures include sales of all establishments in business at any time during the year. Although nonemployer establishments are included in the tables if they operated at an annual sales volume rate of \$2,500 or more, their reported sales have not been projected to a full year's operation.

**Payroll, entire year**—Payroll includes salaries, wages, commissions, bonuses, vacation allowances, and the value of payments in kind (such as free meals, lodgings, etc.) paid during the year to all employees. Gratuities received by employees from patrons are not included. For corporations, it includes amounts paid to officers and executives; it does not include compensation of proprietors or of partners of unincorporated businesses. Payroll is reported before deductions for social security, income tax, insurance dues, etc. Payroll is not limited to "taxable" payroll as reported on IRS Form 941.

**Payroll, workweek ended nearest November 15**—This item consists of payroll, as defined above, paid to persons on the payroll in the pay period ended nearest November 15, 1963. Establishments with a pay period other than a week were requested to adjust the figures to a weekly basis.

**Paid employees, workweek ended nearest November 15**—Paid employees consist of the number of employees, including salaried officers and executives of corporations, who were on the payroll for the workweek ended nearest November 15.

**Active proprietors of unincorporated businesses**—These data are computed by crediting sole proprietorships with one proprietor and partnerships with two proprietors if the establishment was in business during the week of November 15.

### KIND-OF-BUSINESS CLASSIFICATIONS

Retail trade, as defined in major groups 52 through 59 of the 1957 edition of the SIC Manual and its supplement<sup>1</sup> issued in 1963, and as covered in the 1963 census, includes establishments primarily engaged in selling merchandise to customers for personal, household, or farm use. Some of the important characteristics of retail trade establishments are: The establishment is engaged in activities to attract the general public to buy; the establishment buys or receives merchandise as well as sells; the establishment may process its products, but such processing is incidental or subordinate to selling; and the establishment is considered as "retail" by the trade.

In this volume, liquor stores operated by State and local governments, classified in SIC major groups 92 and 93, are also included.

Excluded from retail trade are places of business operated by institutions and open only to their own members or personnel, such as restaurants and bars operated by clubs, school cafeterias, eating places operated by industrial and commercial enterprises for their own employees, establishments operated by agencies of the Federal Government on military posts, hospitals, etc.

Establishments covered by the census were assigned a kind-of-business classification in accordance with the provisions of the 1957 edition of the SIC Manual and its supplement, issued in 1963. However, because in some instances a more detailed classification is required for census purposes than is available in the SIC Manual, additional kinds of business have been identified within the SIC categories.

It should be noted that kind-of-business classifications are not interchangeable with commodity classifications. Most businesses sell a number of kinds of commodities. The kind-of-business code assigned generally reflects either the individual commodity or commodity group which is the primary source of the establishment's receipts or some mixture of commodities which characterize the estab-

lishment's business. Thus, the classification of establishments by kind of business generally does not make it possible to determine either the number of establishments handling a particular commodity or the sales of that commodity. For example, the "food group" classification excludes stores selling some food if the sale of food is not the primary source of receipts; moreover, even though stores are classified as "food stores" some of their receipts may be derived from the sale of nonfood products.

As noted in the Introduction under "Method of Enumeration," the 1963 census data are based on reports from two different sources, for "employer" and "nonemployer" establishments. "Nonemployer" establishments were classified on the basis of information supplied on the 1963 Federal income tax returns. Because of the nature of the information available on the tax returns, the kind-of-business classifications for these establishments represent primarily a "self-designation" by the establishments.

"Employer" establishments, on the other hand, were canvassed by mail and required to complete report forms especially designed for this census. These reports on census forms include information on sales by merchandise lines and other classification data which make possible a more uniform system of classification.

Description of those kinds of business for which data are provided follow.

#### LUMBER, BUILDING MATERIALS, HARDWARE, FARM EQUIPMENT DEALERS (SIC Major Group 52)

Establishments primarily selling lumber, building materials, the basic lines of hardware, paint, wallpaper, glass, electrical supplies, roofing materials, and other supplies and equipment for home construction. Establishments primarily selling farm equipment are also included. Establishments in this group sell to contractors as well as to the general public.

In 1963 the classification information available was more comprehensive than in 1958. On the basis of this information, establishments dealing in lumber and other building materials were classified as "wholesale" if less than 15 percent of their total sales were to the general public. In 1958 an establishment was classified as retail if it reported that any of its sales were to the general public. As a result of this change, about 500 establishments

<sup>1</sup> Executive Office of the President, Bureau of the Budget, **Standard Industrial Classification Manual, 1957, and Supplement to 1957 Edition, 1963.**

with sales of approximately \$ $\frac{1}{2}$  billion, which under the 1958 rules would have been included in retail trade as either lumber yards or building materials dealers, were classified as wholesale trade.

**Lumber yards (Part of SIC 521)**—Establishments primarily selling lumber, millwork, and other building materials, such as brick and tile, cement, cinder blocks, sand and gravel, fencing materials, storm doors and windows, wall board, and roofing materials. Establishments are included in this category only if their receipts from sales of lumber and millwork are one-third or more of their total receipts. (See definition of SIC Major Group 52, above.)

**Building materials dealers (Part of SIC 521)**—Establishments primarily selling either a specialized or a general line of building materials. If lumber and millwork are sold, receipts from sales of these commodities are less than one-third of total receipts. (See definition of SIC Major Group 52, above.)

**Heating, plumbing equipment dealers (SIC 522)**—Establishments primarily selling plumbing supplies and heating and air-conditioning equipment. Establishments primarily engaged in installation on a contract basis or in repairs are not included in the Census of Business.

**Paint, glass, wallpaper stores (SIC 523)**—Establishments primarily selling paint, glass and wallpaper, or any combination of these lines. Establishments primarily engaged in installing glass (except auto glass) are not included in the Census of Business.

**Electrical supply stores (SIC 524)**—Establishments primarily selling electrical supplies, such as lighting fixtures, switches, cable, and fuse boxes for use in homes. Establishments primarily selling electrical appliances are included with "Furniture, Home Furnishings, Equipment Stores" (SIC major group 57).

**Hardware stores (SIC 5251)**—Establishments primarily selling a number of basic hardware lines, such as tools, builders' hardware, paint and glass, housewares and household appliances, cutlery, and roofing materials. These establishments may also sell farm implements.

**Farm equipment dealers (SIC 5252)**—Establishments primarily selling farm tractors, reapers, mowers, plows, wagons, and related farm equipment. These establishments may also sell a combination of basic lines of hardware, such as tools, builders' hardware, housewares, cutlery, and related lines.

## GENERAL MERCHANDISE STORES (SIC Major Group 53, Except "Nonstore Retailers")

This group includes all establishments within SIC major group 53, "General Merchandise," except for "nonstore" establishments which for purposes of this publication are separately classified. (See last group below.) In the 1958 Census of Business, this group (SIC 53) included a classification, "general stores." This classification has now been eliminated. The stores previously classified as "general stores" are now defined as "grocery stores" if their sales of food accounted for 50 percent or more of total receipts, and as "general merchandise stores" if food sales accounted for less than 50 percent of total receipts.

**Department stores (SIC 531)**—Establishments normally employing 25 people or more and engaged in selling some items in each of the following lines of merchandise.

1. Furniture, home furnishings, appliances, radio and TV sets.
2. A general line of apparel for the family.
3. Household linens and dry goods.

An establishment with total sales of less than \$5 million, in which sales of any one of these groupings is greater than 80 percent of total sales, is not classified as a department store.

An establishment with total sales of \$5 million or more is classified as a department store even if sales of one of the groups described above is more than 80 percent of total sales, provided that the combined sales of the other two groups is \$500,000 or more. Relatively few stores of this type are included in this classification as a result of this special rule and most of those which are would otherwise have been classified in the apparel group (SIC major group 56).

**Limited price variety stores (SIC 533)**—Establishments primarily selling a variety of merchandise in the low and popular price ranges, such as stationery, gift items, women's accessories, toilet articles, light hardware, toys, housewares, confectionery. These establishments frequently are known as "5 and 10 cent" stores and "5 cents to a dollar" stores, although merchandise is usually sold outside these price ranges.

Classification of stores in this category is primarily based on self-designation by the store operators.

**General merchandise stores (Part of SIC 539)**—Establishments primarily selling household

linens and dry goods, and/or a combination of apparel, hardware, homewares or home furnishings and other lines in limited amounts. Establishments which meet the criteria for department stores, except as to employment, are included in this classification. Included in this classification are establishments whose sales of "apparel" or of "furniture and home furnishings" exceed half of their total sales providing that sales of the smaller of the two lines in combination with "dry goods and household linens" accounts for 20 percent or more of total sales.

In addition these establishments often sell smoked and prepared meats, fresh fish and poultry, fresh vegetables and fruits, and fresh or frozen meats. This classification includes some establishments which under the rules followed in the 1958 Census of Business would have been classified as "general stores" in the "General Merchandise Group."

**Meat markets (Part of SIC 542)**—Establishments primarily selling meat. These establishments frequently sell poultry, fish, dairy products, eggs, and some groceries. Establishments included in this category reported that "fresh, frozen meat" accounted for more than half of their total receipts and "meat, fish, poultry" sales accounted for 80 percent or more of total receipts. In the 1958 Census of Business establishments were included if they reported that "fresh and frozen meat" accounted for 50 percent or more of their total sales.

This group included a classification "railroad dining-car facilities" in the 1958 Census of Business completely omitted from the 1963 Census of Business.

**Restaurants, lunchrooms (Part of SIC 5812)**—Establishments primarily selling prepared foods and drinks for consumption on their own premises. Establishments included in this group may offer table service or counter service or both.

Establishments in which sales of alcoholic beverages for consumption on the premises exceed receipts from sales of prepared foods and nonalcoholic beverages are classified as drinking places (SIC 5813).

**Cafeterias (Part of SIC 5812)**—Establishments primarily selling prepared foods and drinks for consumption on their own premises. In these establishments customers serve themselves.

**Refreshment places (Part of SIC 5812)**—Establishments primarily selling limited lines of refreshments and food items for immediate consumption. Establishments engaged in selling ice cream, frozen custard, soft ice cream, and similar refreshment items from trucks are included in this classification. In the 1958 Census of Business these establishments were classified as "direct selling (house-to-house) organizations" in the "Nonstore Retailers" group. In the 1958 Census of Business establishments calling themselves "refreshment places" were defined as restaurants if they reported having facilities for seating 5 or more customers.

In this census establishments have been included in this kind of business if they reported themselves as refreshment places regardless of their seating facilities. As a result some places which would have been classified as "restaurants, lunchrooms" in 1958 are now included in this classification.

**Caterers (Part of SIC 5812)**—Establishments primarily selling prepared foods which are served at a place designated by the customer. Establishments calling themselves caterers but which do not sell prepared foods as part of their business activity are not included in this category.

**Drinking places (alcoholic beverages) (SIC 5813)**—Establishments primarily selling drinks, such as beer, ale, wine, liquor, and other alcoholic beverages for consumption on their own premises.

**Proprietary stores (Part of SIC 591)**—Establishments generally selling the same merchandise as drug stores, except that prescriptions are not filled and sold.

**Hobby, toy, game shops (Part of SIC 5999)**—Establishments primarily selling toys, games, and hobby kits and supplies. monuments and tombstones, and other lines not elsewhere classified.

#### NONSTORE RETAILERS (Part of SIC Major Group 53)

**Mail-order houses (SIC 532)**—Establishments primarily engaged in distributing merchandise through the mail as a result of mail orders received. Each establishment of organizations which operate both mail-order houses and other retail establishments is classified on the basis of its own operations. Consequently, the mail-order houses of such organizations are included in this classification while their other establishments are included in whichever of the above kind-of-business classifications is appropriate to their operation. Mail-order houses are divided into subclassifications on the basis of the merchandise they sell in the same manner as the store-type classifications.

In this census the locations operated by mail-order houses to accept orders from their catalogs are classified as separate nonstore establishments. In 1958 these were considered a part of the mail-order house. The effect of this change is to increase the count of nonstore establishments and to report the employment, payroll, and sales of such locations in the place at which they are located instead of in the city in which the mail-order house is located.

**Merchandise vending machine operators (SIC 534)**—Establishments primarily engaged in the sale of merchandise through coin-operated vending machines which generally are located on the premises of other businesses. Since a large number of merchandise vending machine operations are conducted in conjunction with the operations of manufacturing plants, and of wholesale and other establishments not classified in retail trade, data for "retail" merchandise vending machine operators should not be interpreted as providing a measure of total sales through merchandise vending machines. The data for "retail" merchandise vending machine operators also do not include sales made through vending machines owned by establishments classified in other kinds of retail trade. Merchandise vending machine operators are divided into subclassifications on the basis of the merchandise sold in the machines on location as of the end of the census year.

**Direct selling (house-to-house) organizations (SIC 535)**—Establishments which solicit and distribute their products by house-to-house canvass. When the canvassers are employed by the organization which they represent, the "establishment" is the location from which

they operate. However, many of the important organizations whose products are distributed in this manner utilize self-employed canvassers as their representatives. Each such canvasser is counted as an "establishment" in this report. As a result, the "number of establishments" data are considerably larger than would be the case if the count were based on the primary organizations whose products are being distributed. Establishments in operation throughout the census year were included if their annual sales were \$2,500 or more; establishments in operation during part of the census year were included only if their sales were at an annual

rate of \$2,500 or more. Consequently, the "number of establishments" in this category should not be interpreted as being a count of the total number of self-employed canvassers. Direct selling (house-to-house) organizations are divided into subclassifications on the basis of the merchandise they sell in the same manner as the store-type classification. Establishments selling ice cream and other frozen refreshment items from trucks were included in this classification in the 1958 Census of Business but are now included with refreshment places (part of SIC 5812).
